2. THAT, I am Director of Pediatric Oncology at the Oncology Center of Johns Hopkins University, Baltimore, Maryland.
3. THAT, at my direction and under my supervision a series of experiments were performed to determine the reactivity of the RFB-1 antibody of Bodger to various peripheral blood cell types. The antibody was obtained from Dr. Bodger. The results of those experiments are shown in attached Exhibit 1.
4. THAT, the experiments were performed by use of known antibodies such as leu M3, leu 15, leu 14, leu 11, leu 5, leu 1, which type for specific blood cell types, and by use of the fluorescence activated cell sorter. The methodology used is specifically described in Experimental Hematology, Vol. 15, pp. 10-17 (1987) in the Materials & Methods section.
5. THAT, my own blood was used as a source of peripheral blood.
6. THAT, RFB-1 labels lymphocytes in the blood, as demonstrated on page 5 of the attached data sheets.
7. THAT, RFB-1 labels monocytes in the blood, as demonstrated on page 6, 16 and 18 of the attached data sheets.
8. THAT, RFB-1 labels blood T cells which are leu 1<sup>+</sup> and leu 5<sup>+</sup>, as demonstrated on pages 7 and 9 of the attached data sheets.
9. THAT, RFB-1 labels blood NK cells, as demonstrated at pages 11 and 13 of the attached data sheets.

10. THAT, RFB-1 labels blood B cells, as demonstrated at page 13 of the attached data sheets.

11. THAT, these results were confirmed in multiple other experiments.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application of any patent issued thereon.
